

TWO OPEN HOUSES

TWO OPPORTUNITIES TO SHARE YOUR INPUT

MADISON COUNTY DEVELOPMENT CODE UPDATE

What is this?

Madison County has prepared a draft Unified Development Ordinance (UDO) that combines and updates the County's zoning and subdivision regulations into one clear, user-friendly document.

The draft UDO establishes guidelines for land use and development, including building placement, signage, landscaping, and more. It is designed to support responsible growth while reflecting the priorities of Madison County residents.

Why attend?

This is your opportunity to review the draft and share feedback before it is finalized. Your input will help ensure the UDO aligns with the community's needs for agricultural, residential, commercial, and industrial development.
